

SCI/NHBC Certification

Frameclad Ltd

Light Steel Frame System

SCI / NHBC Stage 1 System Certification

The Steel Construction Institute has assessed the structural aspects of the Frameclad System for Stage 1 – System Certification and confirms that it is suitable for use in the construction of dwellings in accordance with NHBC Standards Chapter 6.10 “Light steel framing”.

The panelised system has been assessed for residential buildings up to nine storeys high. As their basic components the systems use cold rolled galvanised C-sections for wall studs and floor, ceiling and roof joists.

To confirm validity, please visit the SCI Certification and Assessment website at www.sci-assessed.com.

Raising Standards. Protecting Homeowners
